Dear Sir/Madam:

For the past year I have been attending school to study computer
hardware, softw
are, and specifically computer networking. I have passed the core
exams and I am
 presently working on the elective exams for the MCSE. My education
has been int
ense and I have become experienced with hands-on troubleshooting on my
network a
t home. I would now like to put into practice the skills that I have
learned.

I am hopeful that any position that I might acquire at this time will
have poten
tial for
growth and advancement, as I am willing to start at the bottom if
there is room
to work
my way up. I am highly flexible as to hours and pay, I have no
restrictions that

. would prevent me from working odd hours, I am willing to travel, and
I am open
to attending extra education that might benefit this position.

I have confidence in my ability to learn quickly, to think
intelligently, and to
 be flexible
and personable in the work environment. As an owner of my own business
for four
years, I understand the value of a good employee and I will strive to
be the bes
t employee that I can be and to give simple, cost effective solutions
to your ne
tworking problems.
I would appreciate your time in reviewing the enclosed resume and I
would welcom
e an
opportunity to meet with you for a personal interview.

With many thanks,

Michele C. Carrington

OBJECTIVE

To secure a challenging position in a dynamic organization where my
knowledge an
d
analytical abilities will enhance the image, growth, and profitability
of a comp
any.
